

Tasking Memorandum No. 00-70

Memorandum For: Information Technology Joint Steering Group (ITJSG)

Subject: Establishment of DCMC Automated Information Systems (AISs)
Configuration Control Board (CCB)

Date: DEC 15 1996

Suspense Date: March 15, 2000

Target Audience: ITJSG Members, All DCMC Personnel Involved with
the Management and/or Determination of AIS Requirements

Requirement(s):

- As we noted in Policy Change Notice 00-10, Suspension of information Technology (IT) Changes for Year 2000 (Y2K), the Deputy Secretary of Defense has decided to sharply limit, until March 15, 2000, any configuration changes to AISs that have already been certified as Year 2000 (Y2K) compliant.
- Both the Deputy Secretary's policy memorandum and a subsequent policy issuance by the DLA Chief Information Office have stressed the need for CCB review and approval of any proposed AIS configuration changes, at least until March 15, 2000.
- To ensure proper AIS configuration control within DCMC, the ITJSG is hereby designated as the Command's CCB. All AIS configuration changes proposed for implementation on or before March 15, 2000 shall be submitted to the ITJSG for review and approval or disapproval.
- The ITJSG shall coordinate all its configuration decisions with the DLA Chief Information Officer.

Point of Contract for Further Information:

Mr. Vic Szabo, DCMC-AB, vic_szabo@hq.dla.mil, (703) 767-2373
